6	Develop the python Script	A Python script is a set of commands included in a file that is intended to be run similarly to a program. The concept is that the file will be run or performed from the command line or from within a Python interactive shell to perform a particular activity. Of course, the file includes methods and imports different module.	1 Weeks	Completed
7	Develop web Application	A web application (or web app) is application software that runs in a web browser, unlike software programs that run locally and natively on the operating system (OS) of the device.	3 weeks	Completed
8	Project Development Phase	Project development is the process of planning and allocating resources to fully develop a project or product from concept to go-live.	4 weeks	Completed
